RAINBOW GARDENS

Middleton, Idaho

(Diadem)

AN EXPLANATION

Due to the fact that I had to lift my bulbs very early last fall, and the storage house I used was entirely too warm all fall and winter, many of the bulbs dried out too much, and looked bad. As a result, I have had a few reports of poor growth from them. So here is what I will do to make this right. If you had ANY trouble with bulbs you ordered from me last spring, **Please** let me know, and I will gladly replace them free of charge. Please co-operate in this. Thanks.

DIADEM (Lines)

This beautiful, fragrant glad is a two-toned rose; colors blended in a most attractive way. Color quite similar to Oregon Rose, except Diadem has a light throat. Opens up to 9 lightly ruffled 5½-inch florets on a 16-18 bud spike. The fragrance is more pronounced when spike is cut. A good shipper, and a good keeper. Because of a good stock, the price this year is greatly reduced from the \$10.00 last year.

Price—Large, \$3.00; three for \$7.00. Medium, \$2.00; three for \$5.00. Bulblets, ten for \$1.00 with bulb order.

No small bulbs sold this year, as they cannot produce the kind of a spike I want you to see. Those who have grown it, and desire growing stock, please write for prices.

Here are some reports I have received from those who grew it this year and last. Read what they say about it.

S. F. Lantz of Pennsylvania writes: "I have grown glads for twenty years, and I think I know a good one when I see it. Your Diadem is a good one. It opens eight or more 5-inch florets: has a delicate fragrance all its own which increases as florets open, especially when cut. (1947 report). This year's report: "Diadem seems to get better each year. Was extra good for me this year. Won a blue ribbon on it this year."

Mr. Crichton of Montana (1947 report) writes: "I test about sixty new ones each year and keep a field record book of performance. My book shows Diadem as 'Exceptionally fine!' When I put exceptionally fine in my book, they are just that. This is my private record, and I don't try to kid myself. I have no hesitation in assigning Diadem to a top rating."

L. H. Grout of Detroit, Michigan, writes, August 30, 1948: "Diadem bloomed August 28; the temperature was 97°. It stood up in all this heat, and today, August 30, has eight florets open, all in perfect condition. I am sure you have a splendid commercial as well as a show Glad in Diadem."

Paul G. Volkman of Inglewood, California writes, June 10, 1948: "Needless to say, we watched it very closely, as we were curious to see it and test its fragrance. Cut it June 7. The next morning we were amazed and delighted at what we beheld. When the third and fourth florets were open, the fragrance was very definite. By the end of the week there were six very lovely rose-pink florets open on a twenty-bud spike, some measuring six inches across. Believe me, when I say we have never seen anything quite as lovely in all the glad world as Diadem. It is simply superb in both form and color. So we say, 'Hats off' to Diadem. It's the queen of loveliness."

I have many, many more such reports, but think

these will suffice. All these people can't be wrong, as some have grown it two years.

Remember, I guarantee every bulb to make a good healthy growth, and to produce a fine spike, or I will gladly replace them free.

MYRNA FAY (Lines): This one is becoming so well known, it needs only a brief description here. It is a rich orchid lavender. Opening 9-11 lovely florets on a 20-bud spike. It is very early, thus making it a great commercial. Wins the blue where ever shown.

Large, \$1.00; ten for \$8.00. Medium, 75c, ten for \$6.00.
Small, 50c; ten for \$4.00; 100 for \$30.00. Blts., 20 for \$1.00; 100 for \$5.00. Half pint, \$15.00. Pint, \$25.00. Qt., \$45.00.

THREE OF MY NEW ONES

IDA GAY (Lines): A full sister of my Myrna Fay. In many ways, it is better than Myrna Fay. A beautiful, rich lavender and gold. Its one fault is, often the spike is a little short. But I have many reports of 20 bud spike, and very lovely, and urging me to release it. So I am releasing a limited number this year, more as a trial than anything else, and at a price where everyone can try it.

Large, \$1.00. Medium, 75c; three for \$1.25.

KEEFER (Lines): Here is a mighty interesting blue. Possibly the largest of the blues. Personally I like it, but some do not care for it, because it will fleck some in hot weather. However, I have yet to see the Lady who doesn't like it, and many rave about it. Grows very tall and straight. Opens 9 or more large florets on a huge spike. Buds before they open look like rich indigo blue velvet. As they open they turn lighter blue. Am putting the price way down so all may try it this year.

Large, \$1.00. Medium, 75c; three for \$1.25.

ROSE PLUME (Lines): A very soft, velvety rose. Almost a light scarlet. No throat marks. When well grown, makes a massive spike with 10 florets open, all the rest showing color. Has a glossy sheen that is very attractive. An early bloomer.

Large, \$1.00. Medium, 75c; three for \$1.25.

Have two or three good ones under test for another year. Would be glad to send you a few bulbs free, and all I ask in return, is a good report on them in the fall. If you would like to try some, just let me know when you send in your order. Thanks.

SPECIAL OFFER

The following three are the most outstanding ones I have ever developed. Have bloomed them four years and they seem to get better each year. Have decided to let out a few bulbs this year at a reduced price, for the purpose of having them tested a little more before I finally release them.

All I ask in return for this low price, is that you agree to send me a full report on them this fall. This gives you the bulbs a year in advance for the regular trade, and that means a lot with an outstanding one.

HERE THEY ARE

LA VALLE (Lines): A beautiful rich, ruffled light cream with small orange throat marks. Consistently grows five feet tall. Opens 8 or more 5½-inch florets. On a nice long spike, always straight. Florets are so rich they instantly attract attention. This year I planted it right alongside Sun Spot and Butterscotch, and practically every visitor chose it as the best of the three. Bulblets production and germination good. Regular price.

Large, \$5.00. Medium, \$4.00.

NELLIE LOU (Lines): Almost a true flesh pink with small strawberry throat marks. Grows 5½ feet tall, always straight. Opens 10 large florets on a long spike. Holds its size almost to the last bud. A very good keeper. This is NOT just another pink. I have never seen another just like it, or one more beautiful. It is truly outstanding. Picture front cover.

Large, \$5.00. Medium, \$4.00.

CHINOOK (Lines): I gave it this name because of its rich, pure salmon color. No throat marks of any kind. Just pure salmon throughout. Grows nearly six feet tall and very straight. It is a wonderful sight to look down the row and see practically every spike the same height. A basket of Chinook is a sight one will remember. Opens 7 or more 6-inch florets on a giant spike. Holds its size nearly to the last bud. Extra good keeper. I sent a few bulbs to a grower in Alabama this spring, and here is his report. "Chinook is the best I have ever grown, and if it comes as good each year as it performed for me this year, it will be a sensation in the South, as it does not burn or fade in this hot Alabama sun. Height above average. Strong stately spike. Bloomed in 85 days."

This is one of the very best I have ever produced, and is bound to become very popular. Because of its beauty, size and pureness of color one never tires of it. I am only releasing a very few of this one this year. Just enough to have it tried out a little more. These prices will not be lowered next year. Regular price.

Large \$5.00. Medium, \$4.00.

Special offer this year only. Any one separately, Large, \$4.00. Any two together, \$7.00. All three for \$10.00.

Remember, I am only releasing a limited number this year, so first come, first served. This is the biggest dollar's worth in the Glad world today. Don't miss it.

P.S. If you will enclose with your order a few names and addresses of your friends who are glad fans, and who raise quite a few glads, I will put in some extra bulbs for your trouble. Please put in only the names of those who are real glad growers, and who might be interested in my Catalog. Thanks.
